Insurance Kills a Bundle of Worry

A good fire policy will take the load off your shoulders and put it upon ours—rather upon the strong shoulders of the well intrenched companies we represent. Have you noticed how our companies stand the strain of the Rochester, Baltimore and San Francisco fires? Need we say more?

St. Louis, Mo., June 13.—Under instructions from Washington, Federal Marshal Morse with a force of heavily armed deputies went to Sikeston, Mo., today to arrest Jas. Smith, a wealthy citizen, who is charged with peonage. It is alleged that Smith and his relatives imported a large number of negroes to reclaim swamp lands, and held them at work often under Winchester rifles, and locked them in stockades at night. The men, it is claimed, were cruelly treated. Further arrests are anticipated.

Albert T. Patrick Now Has Till October at Least.

Canton, Ohio, June 12.—Application was made to Justice Day of the United States supreme court this afternoon by Attorney Lindsay for a writ of appeal and a stay of execution in behalf of Lawyer Albert T. Patrick of New York. Justice Day, after hearing the reasons of Patrick's counsel, decided the case appealable and granted a writ to that effect. It will be heard by the supreme court in October. The action was brought before Justice Day because Justice Fuller and other members of the supreme court are widely scattered on their vacation trips, and it was most convenient to reach him.

Now Work South.

The party of railroad surveyors, who having completed a survey to Greenville, are now working south-east, and have camped about ten miles from Palestine.

A Herald representative in conversation with a prominent man of Dallas was informed that undoubtedly another line will be built into Palestine from Mexico, the survey for the line having been made about one year ago.

Ex-Lieutenant Governor Browning, in an interview at Fort Worth, stated that the extension of the Texas Central from Stamford to Amarillo was being rapidly pushed and the line would also be extended from Waco to Palestine, connecting the prairie land in the Panhandle with the rich timber lands of East Texas. This information is very gratifying to the people of Palestine, and all feel that in the next two or three years there will be at least two new railroads entering the city.

Plea of Guilty Under Charge.

Special to the Herald.

Kansas City, Mo., June 13.—The trial of the Chicago, Burlington and Quincy railroad before the Federal court, on a charge of giving rebates, is expected to come to an early close. In an argument to the judge, while the jury was out of the room, Judge Spencer, counsel for the railroad, said: The newspapers say we are guilty, most of you around here affirm that we are guilty, and the people think we are guilty, and for the purpose of argument we will admit that we are guilty under your charge, but we are not guilty under the indictment. This case should not go to the jury. The jury believes us guilty and if it goes to the jury we will be convicted.

Let the Herald do your printing, and have the satisfaction of knowing that it will be done right.

A MAD RULER IS NEARING HIS END

DISPATCH FROM MUNICH SAYS THAT KING OTTO OF BAVARIA IS AGAIN SERIOUSLY ILL.

Special to the Herald.

Berlin, June 13.—A dispatch from Munich says that serious illness has again taken hold upon mad King Otto of Bavaria. By a peculiar coincidence today happens to be the twentieth anniversary of King Otto's ascension to the throne. Several years before he succeeded his father, King Ludwig II, Otto was afflicted with a most dangerous form of mental trouble, and for twenty years he has been hopelessly insane, the country being under the rule of a regency. Ludwig II was drowned in Starnberger Lake, on the royal estate. He had committed suicide. Ludwig's form of insanity was an exaggerated passion for art. Now Otto's passions is to kill. For twenty years his guards have stood in dread of their lives while on duty watching over their insane ruler. He is a man of gigantic stature, with unkempt beard and wild eyes. His pastime was shooting at peasants who chanced to pass within range of his windows. It is said that he would sit at a window all through the day waiting for a chance to "pot" a peasant.
